1. This is my Fitbit dashboard. My goal is to walk at least 10,000 steps per day. How many days over the past week did I reach this goal?
2. Which day did I do the most steps?
3. Which day did I do the least steps?
4. What is the approximate sum of the number of steps I took on my two highest days?
5. How many total miles have I walked this past week?
6. How many calories did I burn over the past week?
